

Kite and Leaf...

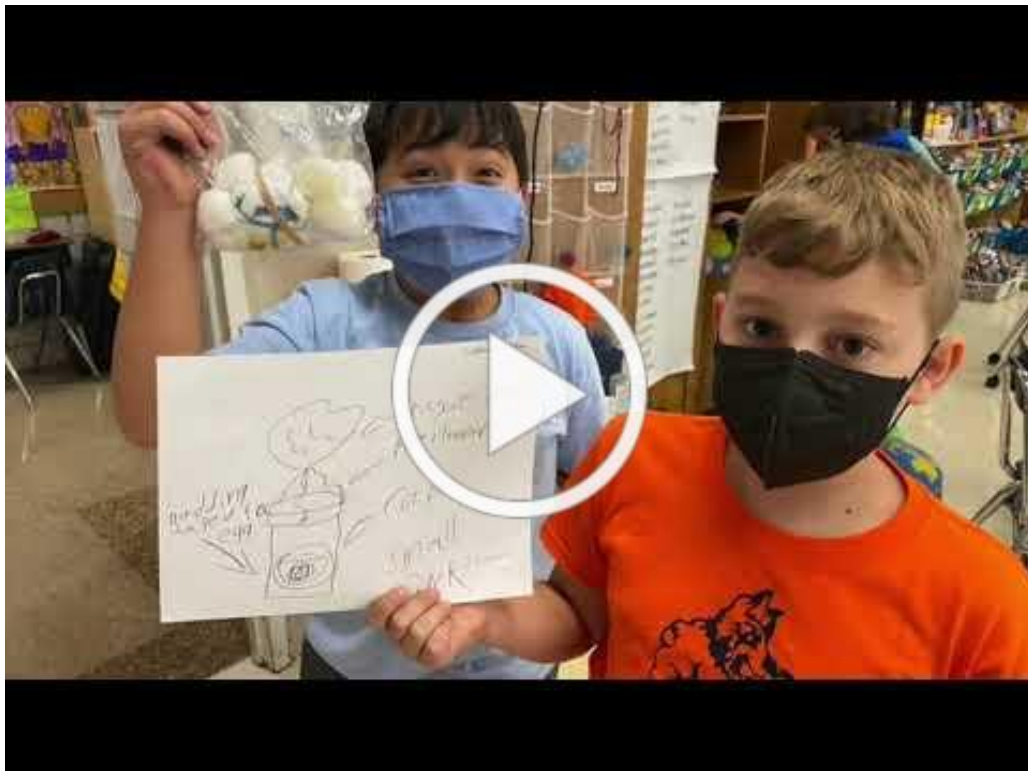

The good news
email from TCS!

Celebrating Our Supporters and YOU!

For two years now, our board, directors, faculty, and adults have made hard decisions to protect the safety of our children and our students. Somehow, somehow, we persevered in prioritizing their needs for in-person learning and social connections throughout the pandemic.

While we've shared this video in another email with details about our [annual benefit](#), we want to share it again, Why? Because if you take a look, most of these photos were taken during the pandemic.

You'll see how we adapted with more outdoor time, even outdoor classrooms, enthusiastically embraced masking and cohorting. We kept following local guidelines, erred on the side of safety when there were gray areas, we tested,

vaccinated our faculty and staff, went remote when we had to, increased and deepened the cleaning of our facility. But always, at every juncture, the resounding theme was "how will this affect our students?" - their health, their learning and social, psychological, and emotional well being.

We brainstormed and adapted to keep all the key components of our progressive education program as joyful, challenging and inspiring for our students as they could be. Sometimes the adaptations required extra work, extra time, and personal sacrifices from our faculty and staff.

Was it worth it? **ABSOLUTELY!**

And we couldn't have done it without each and every one of you. Your patience, your understanding, your input and feedback, your adaptability, and your financial support for our programs, our teachers, and for our "families fund" that helped keep so many kids in school despite the economic impact the pandemic had on their household.

So while this video title is "The Magic of Learning at TSC" - know deeply that part of that magic is **YOU**.
